

# ARCHETTO TWIST

design Gianfranco Marabese 2015

Archetto Twist, sempre generato da un'estrusione in silicone, al cui interno alloggia una strip LED, è un profilo di luce, morbido: un progetto estremamente duttile, applicabile in tutte le situazioni in cui necessita una luce poco invasiva, di facile installazione. La flessibile linea luminosa, utilizzabile indoor e outdoor, consente di ottenere linee di luce di lunghezza variabile, fino a 5 metri, con taglio a misura ogni 5 centimetri.
