Untreated wood gets its unique character due to the naturalness. Colour or structure variations from the samples shown are standard and have to be accepted. The wood will get a desired patina overtime with daily use, which emphasizes the character of the wood. For further care please notice the general wood information. Puttied areas may have a different colour appearance depending on the surface. For example, dark putty can look lighter on untreated wood.

\* = Available on request against processing surcharge

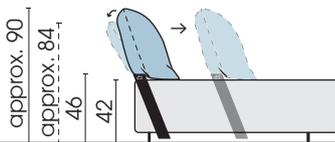

✓ = Bullfrog recommendation and standard surface

∅ = These variants are not available

Attention! 2 motorised elements may only be combined with table T114 or stool 550 as an intermediate element. The VB1 connector set must be ordered separately for this purpose.

Please specify combinations when ordering.
