

ANISETTE

design Francesco Lucchese 2023

Modello SP_CE

A collection with modern geometries, reminiscent of the shape of a lantern. Thanks to a special coupling system that perfectly hides the frame and allows the glass to be fixed without drilling, the two shaded white crystal diffusers can be assembled in four different configurations, creating different overlaps and silhouettes by playing with the internal source and the transparency of the glass. The light source, equipped with an E27 socket, slides inside the diffuser to create a diffuse light contribution, if positioned in the centre, or make it directional towards the surface, if moved downwards. Available in pendant version.

GLASS FINISH

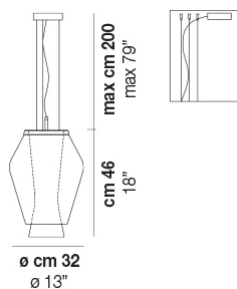

BCSF
white shaded

FRAME FINISH

BO
matt white 1
