

Modello SP 2_CE

The search for primordial forms and their combination leave ample scope for interpretation. The glass and the light range of colours create transitional half-tones suggesting their shape as in a watercolour of vibrant transparencies. The LED source illuminates the surface and the glass at the same time, bringing towards the ceiling a part of the soft-colour light. Mounted in clusters or individually, they show a strong stylistic character, and become almost sculptures. Crystal, shaded white, transparent smoke and old green glass colours are enriched by matt steel finishes.

GLASS FINISH

BCSF
white shaded

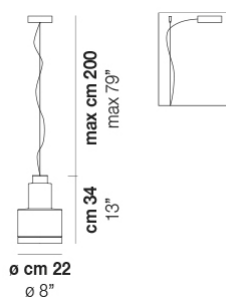

FUTR
smoky transparent

FRAME FINISH

AVS
matt steel
