Untreated wood gets its unique character due to the naturalness. Colour or structure variations from the samples shown are standard and have to be accepted. The wood will get a desired patina overtime with daily use, which emphasizes the character of the wood. For further care please notice the general wood information. Puttied areas may have a different colour appearance depending on the surface. For example, dark putty can look lighter on untreated wood.

Standard processing:

Each piece of furniture is handmade and unique. Deviations to the listed measurements may be caused by:
 1. different upholstery materials (fabric, leather), 2. processing of ticking mats, 3. the pressure to combine individual parts, etc.
 The seat comfort of a sofa type with larger seat depth usually differs from one with lower depth.

'Special cover':

Without dividing seam (front side)

Thick leather, pattern fabrics and cord
